RE: Updates on Henkel Force Majeure declaration

Dear Valued Customer,

Reference is made to our letters of 14.06.2022 and 21.06.2022 where we informed you that Henkel's ability to procure key packaging components for certain products has been affected due to unforeseen circumstances beyond our control, namely the declaration of force majeure of one of our main packaging suppliers for those packaging components. As a result, we declared Force Majeure on products as listed therein. This situation is still continuing to apply.

However, as previously indicated, we have taken utmost effort to identify equivalent alternate components from our supplier's alternate locations to best serve our customers to the extent possible in order to mitigate any consequences from the supply disruption still continuing at our supplier. Today, we are pleased to inform you that we have successfully qualified components from the supplier's alternate locations for the affected products listed in the table below. According to our internal testing, to the best of our knowledge as of today, such alternatives do not present relevant changes to form, fit, nor function of the products. However, as always, due to the different working and application possibilities and the working and application conditions beyond our control, we do not assume any liability for the suitability of the products for the relevant production processes as well as

the intended processing purposes and results. In order to ensure such suitability, we recommend sufficient own trials and tests in any case.

Henkel will start using such equivalent alternate components for the products as of the respective date mentioned in the table below.

Unless notified by you to the contrary within 2 weeks of the date of this letter, we will assume your acceptance of the above changes and your waiver of any claims for long-term effects. However, should you not yet be able or willing to receive the products manufactured with components from the supplier's alternate locations, please cancel your orders and re-submit at a later point in time once you wish to order the products utilizing components from the supplier's alternate locations.

Please note that all applicable lead times, SDS and TDS will remain unchanged.

We appreciate your continued business.

Sincerely,
