

Aerodur 2122 Touch Up Primer

Our 2oz Aerodur 2122 touch-up primer kit contains a Lead Free and Chromate Free, corrosion-inhibiting epoxy primer for use on aircraft parts. Qualified to LMA-MR058, Class 1, Form 1, this kit is especially suited for the smallest repairs.

This product is packaged in a simple, ready-mix, two component kit and is both easy to apply and fast drying. The kit is precisely measured to eliminate mixing errors and to help you reduce liquid waste. The self-contained package means there's no need for additional containers and no messy cleanup. Once mixed, simply dip your brush* and apply.

Qualified to LMA-MR058, Class 1, Form 1 Intuitive and easy to apply

- Pre-measured and ready-to-mix
- Brush application directly from the kit
- No clean-up
- Fast drying

Sustainable and safe

- Reduce liquid waste with a 2oz kit
- Lead Free and Chromate Free

Directions for use

To use Aerodur 2122 Touch-up Primer, follow the simple steps below.

The kit arrives in an easy-to-open sealed bag.

Add the curing solution (B) to the base component (A).

Shake the bottle so that the curing solution and base are mixed thoroughly.

After a brief induction period, your touch-up primer is now ready to use.

* Brush is not included in kit.
