

Flymark® V7 Aerospace Exterior Markings

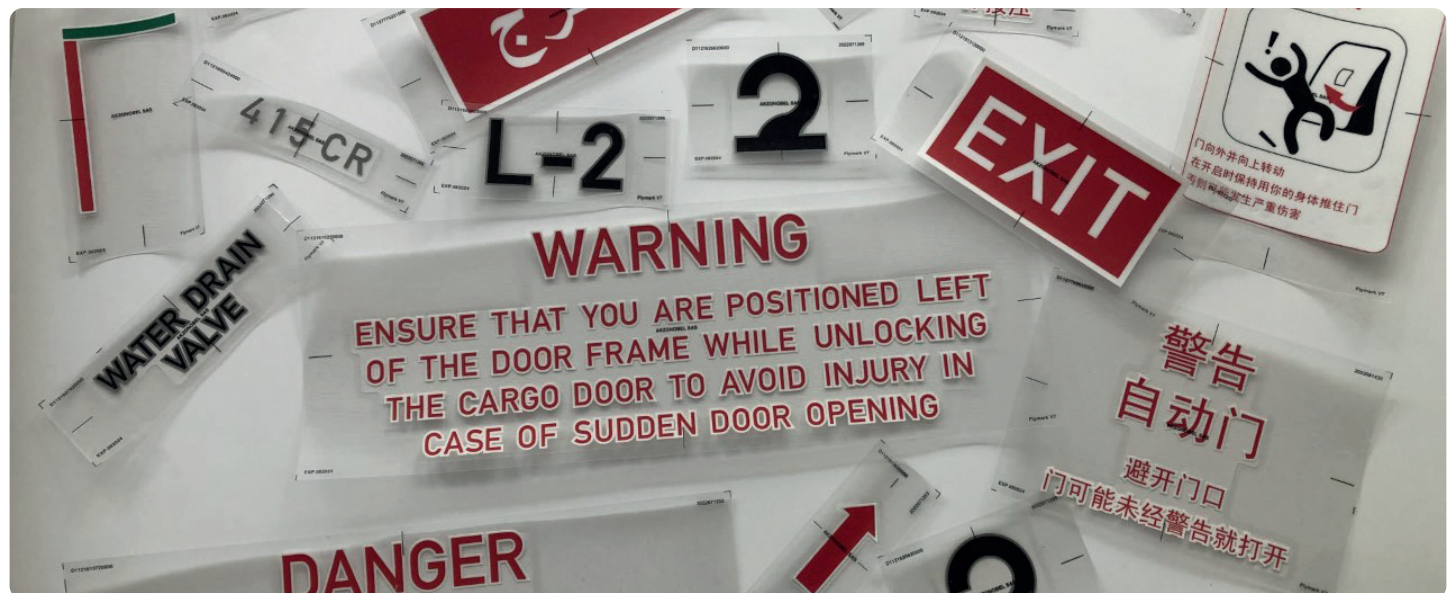

AkzoNobel's latest development on external technical markings is Flymark® V7. This solution has been developed exclusively for the aerospace market offering improved durability and reliability.

Flymark® V7 is a full aircraft marking kit, which provides all the mandatory signage regarding technical, safety, and warnings for wings and fuselage of the single aisle aircraft family. Designed to be ultra-resistant to erosion and having a high chemical resistance, Flymark® V7, provides long-term durability with excellent ageing, flexibility, and formability required by the Aerospace Industry.

Flymark® V7 is compliant with Airbus AIMS 04-16-003 and Airbus TS081C.

Main characteristics:

- Clear polyester film with an acrylic based pressure sensitive adhesive
- Screen print technology

Contact your local AkzoNobel representative to see how we can help you rethink your choice of coatings, or visit our website at: aerospace.akzonobel.com. Alternatively, e-mail us at: customer.service@akzonobel.com

Since 1792, we've been supplying the innovative paints and coatings that help to color people's lives and protect what matters most.
