

Interior Decorative Films

AkzoNobel self-adhesive decorative Intura films are designed for customization and decoration of aircraft interior. Intura Decorative films are durable and versatile, with the ability to reproduce any color, gradient, or pattern, and are available with a variety of textured effects allowing unlimited design possibilities, which can be combined to enhance cabin appearance.

Our team of in-house experts will meet any customer's needs for even the most unique projects. Intura decorative films offer both total customization options as well as a large number of readily available designs.

AkzoNobel Intura decorative films are compliant with aerospace regulations, meeting FAR 25.853(a) and F.A.R. 25.583(d) smoke and flammability requirements for aircraft interiors and are compatible with

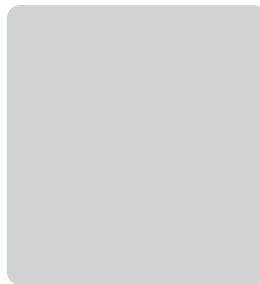

all paint systems. It offers excellent flexibility and conformability for easy application on different shapes and substrates while offering high quality, aesthetically pleasing finishes, long-lasting durability, and cleanability.

After their long-life cycle, they can be easily removed without adhesive residues or damage to the underlying substrate, allowing for the application of new colors or designs.
