

## General Capabilities Sheet

(Cage Code No. 84180 - Updated 3-23-22)

Armite Laboratories, Inc. dba Armite Lubricants is AS9100D:2016 & ISO9001:2015 Certified and a Woman-Owned Small Business Manufacturer, Designer, and Global Wholesaler of Military Spec, Commercial Spec & Commercial Grade Chemical Compounds, such as Anti-Seizes that have high-performance properties, including Corrosion Inhibiting, Rust Penetrating, and Lubricating Compounds. Armite is NIST SP-800-171 Compliant (Cyber Security)

**Founded in 1928 – Proudly Made in America**

---

### About Us

Over 94 years ago the founder of Armite, Howard Armington, a chemist by trade and Class of 1907 graduate from Colorado School of Mines, pioneered lubricating compounds for use as anti-seize compounds. Such beginnings led to the expansion of our product line and has resulted in Armite Lubricants producing and supplying our superior products worldwide, including to the Department of Defense and its Military Divisions. Armite's manufacturing facility is approved by the Department of Defense and by The Boeing Company. Armite has proudly been doing business with the DoD/Military since 1957. We offer emergency & AOG shipments. Armite is AS9100 (including new product design) & ISO-9001 Certified. See DoD disclaimer footnote1.

**Manufacturing:** Armite manufacturers and designs key chemical compounds including, lubricants, and corrosion preventive compounds with customer-specific applications in mind. Armite also has in-house laboratory testing and an ISO rated clean-room. Our lubricants, anti-seize compounds, and other specialty chemical compounds are time-tested and proven to reduce costly downtime and prolong the life expectancy of our customers' valuable equipment.

**Customer Base Overview:** Our products are used in various industries such as the Dept. of Defense, Military (Air, Land & Sea), Aerospace, Aviation, Commercial and Private Aircraft, Marine Watercraft including Ships & other Vessels, Energy (mining, wind turbines, oil & gas, etc.), Transportation, Industrial, Commercial, Land Vehicles, Construction, Advanced & General Manufacturing, and MRO & OEM. Armite is a valued part of the global supply chain that keeps equipment lubricated and free from seizing, as well as other benefits ensuring the longevity of Armite's customers' assets. We are proud to be represented by many highly regarded distributors worldwide.

**Representative Applications:** Armite's materials support original manufacturer's as well as maintenance, repair and overhaul facilities. Sample applications include aircraft propellers, engines, braking systems, turbines, landing gear, and numerous other applications. Many of Armite's products meet U.S. Military Specs as well as Boeing's Commercial Spec for Armite's BMS3-28A. Armite's 12|34® Formula is one of our flagship products which is certified by the Dept. of Defense on its Qualified Product Data Base to meet [MIL-PRF-81309](#) Revision H1. 12|34® Formula lubricates as well as provides high-performing corrosion prevention, rust prevention & penetration, water displacement, is non-flammable with a slow evaporation rate, and when applied it' an ultra-thin film.<sup>1</sup>

---

<sup>1</sup> Disclaimer 1: The approval by the Dept. of Defense of Armite's production facility does not equate to a DOD endorsement. Disclaimer 2: Certification of Armite's 12|34® Formula as a qualified product on the DoD's Qualified Product Data Base (QPD) does not imply endorsement by the DoD of this product.

## Department of Defense Qualified Product Database

Green - Source is Certified, Yellow - Source is due for Certification, Red - Source is overdue for Certification. Contact QA for additional information.  
Total part count = 7
