

Tube Marker TAGGR®

An introduction

What is a Tube marker?

Suitable for labelling all types of surfaces, such as oily machines or rusty metals.

Areas of application

- Glass
- Wood
- Plastic
- Stone
- Rust
- Neoprene
- oily surfaces
- wet oily surfaces

Particularly suitable for rough to very rough surfaces

How it is applied?

WRITE

For optimum writing flow, place the head vertically on the surface.

CONSTANT PRESSURE

Thanks to the tube roller, the desired pressure can be permanently applied to the tube.

Important: Always roll up in the direction of the tube seam.
