

Interior Technical Markings

The interior adhesives solutions from AkzoNobel proposes mandatory security signage and technical placards.

These high-performance adhesives are compliant with aerospace regulation meeting FAR 25.853(a) and F.A.R. 25.583(d) flammability requirements for aircraft interiors and are compatible with all paint systems.

AkzoNobel Technical Markings are printed according to customer data or drawings, responding to any request in terms of shape, color, or language with a high-quality marking. Excellent chemical resistance to many solvents and cleaning agents ensures a long lasting and durable finish.

Main characteristics:

- Polycarbonate or PVC film with an acrylic based pressure sensitive adhesive
- Screen or digitally printed technology (or both)
- Excellent tear and abrasion resistance
- Resistant to a variety of solvents and cleaning agents

Technical markings available:

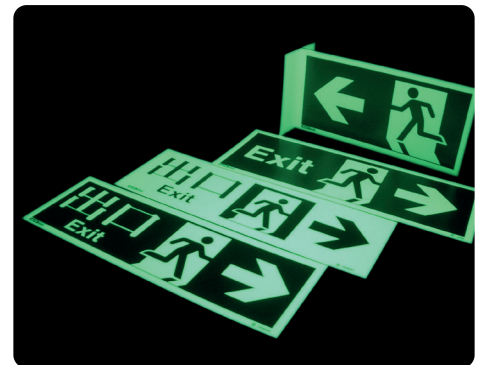

Intura Film MP

Printed polycarbonate films: Intura film MP is most frequently used on interior aircraft signage for pictograms or instructions in lavatories, doors, or on the PSU.

Intura Film OP

Printed transparent vinyl films: Intura Film OP has excellent clarity and allows for the substrate color to show through where the marking is implemented, giving a clean finish. Ideally used on seats components, side-wall panels, or class dividers.

Intura Film LP

Printed luminescent vinyl films: Due to its high intensity photo-luminescence properties, Intura film LP is recommended for emergency exits, entry doorsteps, or any mandatory information that must be seen during flight at low light.

Contact your local AkzoNobel representative to see how we can help you rethink your choice of coatings, or visit our website at: aerospace.akzonobel.com. Alternatively, e-mail us at: customer.service@akzonobel.com

Since 1792, we've been supplying the innovative paints and coatings that help to color people's lives and protect what matters most. Our world class portfolio of brands – including Dulux, International, Sikkens and Interpon – is trusted by customers around the globe. We're active in more than 150 countries and use our expertise to sustain and enhance everyday life. Because we believe every surface is an opportunity. It's what you'd expect from a pioneering and long-established paints company that's dedicated to providing sustainable solutions and preserving the best of what we have today – while creating an even better tomorrow. Let's paint the future together.
