

AEROSPACE

Professional cleaning & maintenance
solutions for the aviation industry

Aerospace Solutions

Our trained staff work closely with customers to identify best practice and the maximum opportunity for cost savings, from simply adjusting a cleaning schedule to the installation of a new wash plant.

Arrow provides solutions for OEM and MRO operations in both civil and military aerospace, covering a wide range of high specification applications. Engine manufacture and overhaul, precision cleaning of electronic systems and onboard disinsection are just a few examples of where our products are put to work.

We are supported by numerous approvals from leading manufacturers and other authorities. It is critical that the cleaning and maintenance of any aircraft is undertaken with the utmost attention. The process of keeping aircraft clean inside and out has an impact on the health and safety of its passengers and crew.

There are potentially dangerous stowaways on every flight, they will be found on seats and headrests, tray tables and windows. The bacteria that passengers unwittingly carry with them can be a real problem for airline operators.

Solutions developed for specific maintenance applications hold just as much importance as the cleaning solutions developed for inside the aircraft. Arrow can ensure the continued airworthiness of an aircraft with the supply of chemical solutions that comply with industry directives.

Our focus on making the highest quality products and working closely with end users to optimise their process is why major OEMs, airlines and militaries around the world trust Arrow to maintain the safety and reliability of their fleet.

midlands aerospace alliance

Maintenance, repair and overhaul

Safety is always the number one priority for airline operators. Making the correct choice when it comes to selecting the maintenance chemicals used in MRO tasks can both dramatically reduce the level of hazards workers face and ensure the right result, in terms of operational efficiency, is achievable.

Arrow Solutions' range of Aerospace products meet the highest quality standards and most stringent environmental regulations. Solutions including those specially developed for engine overhaul, mechanical and electrical corrosion prevention, as well as the degreasing of critical surfaces have all been developed by Arrow Solutions for right first-time cleaning.

ADHESIVE SPRAY

Multi purpose contact adhesive.

ANTIFREEZE

Ethylene glycol based engine coolant concentrate formulated for optimum performance in diesel engine applications.

AQUAKLENZ CP

Aqueous, low foaming degreaser with added corrosion inhibitors for spraywash applications.

ARROWIPE 70 IPA

All purpose, alcohol based, hard surface cleaning and degreasing wipes.

ARROWIPE AQUA WIPES

Aqueous, non-flammable, low VOC, low odour and low lint wipes for general cleaning and degreasing and for the removal of wet and semi cured sealants.

CLO-TABS

Aqueous, low foaming degreaser with added corrosion inhibitors for spraywash applications.

Maintenance, repair and overhaul

Aircraft maintenance, repair and overhaul (MRO) is an essential requirement in preordained conditions of airworthiness.

GL REMOVER

Citrus solvent based aerosol for glue and label removal.

HANDISAN

70% alcohol based, thickened virucidal and bactericidal hand sanitiser gel.

HANDISAN AEROSOL

70% alcohol based, liquid virucidal and bactericidal hand sanitiser aerosol spray.

LIQUID HANDISAN

70% alcohol based, liquid virucidal and bactericidal hand sanitiser.

LOTOXANE®

The trusted, safe solution for professional degreasing.

LOTOXANE® WIPES

Convenient and versatile degreasing wipes impregnated with Lotoxane®.

LOTOXANE® FAST

A faster drying Lotoxane® variant which evaporates three times faster than standard Lotoxane®.

LOTOXANE® FAST WIPES

Convenient and versatile degreasing wipes impregnated with Lotoxane® Fast.

LOTOXANE® HD

Highly refined low odour solvent degreaser with boosted degreasing power.

LOTOXANE® HD WIPES

Aqueous, low foaming degreaser with added corrosion inhibitors for spraywash applications.

RAPIDE

Advanced residue free degreaser suitable for critical applications.

POWERSOLVE WIPES

Effective removal of semi-cured adhesives & sealants, lacquers, resins and inks.

QED

A fast evaporating, low odour solvent degreaser. Removes oil, grease and particles from metal machinery and electrical components, drying rapidly to a residue free finish.

ZX-54

Ultra-safe, non-flammable, electro-mechanical 3 in 1 maintenance fluid. Penetrates corroded and seized nuts, bolts and studs, easing release.

SHIELD NF

Non-flammable corrosion preventative, de-waterer and light lubricant.

SUPERSOLVE AS

Electronic cleaner for critical surfaces.

Aircraft cleaning solutions

Cleaning both civil and military aircraft as efficiently as possible involves plenty of planning, staffing, logistics and well-considered chemicals. Arrow work closely with operators to determine the safest and most efficient schedules and practices for internal and external cleaning requirements.

Arrow Solutions' range of cleaning chemicals for the aerospace industry are the result of extensive research and development collaborations with operators and technicians. Arrow Solutions' deep cleaning, exterior degreasing, heavy stain removal, disinfection and disinsection solutions have consistently provided major airline operators and OEMs with exceptional and economical cleaning outcomes.

LIQUID HANDISAN

70% alcohol based, liquid virucidal and bactericidal hand sanitiser.

LOTOXANE®

The trusted, safe solution for professional degreasing.

LOTOXANE® WIPES

Convenient and versatile degreasing wipes impregnated with Lotoxane®.

LOTOXANE® FAST

A faster drying Lotoxane® variant which evaporates three times faster than standard Lotoxane®.

LOTOXANE® FAST WIPES

Convenient and versatile degreasing wipes impregnated with Lotoxane® Fast.

LOTOXANE® HD

Highly refined low odour solvent degreaser with boosted degreasing power.

LOTOXANE® HD WIPES

Aqueous, low foaming degreaser with added corrosion inhibitors for spraywash applications.

POWERSOLVE WIPES

Effective removal of semi-cured adhesives & sealants, lacquers, resins and inks.

QED

A fast evaporating, low odour solvent degreaser. Removes oil, grease and particles from metal machinery and electrical components, drying rapidly to a residue free finish.

RAPIDE

Advanced residue free degreaser suitable for critical applications.

SHIELD NF

Non-flammable corrosion preventative, de-waterer and light lubricant.

50
OVER *Years*
OF INNOVATION

We're here to help you tackle your toughest cleaning and maintenance tasks with confidence.

At Arrow Solutions, we're proud to be a leading manufacturer of professional, industrial cleaning and maintenance chemical products. Our high-quality aerosols and liquids are trusted by thousands of companies worldwide to solve their everyday problems.

We've earned a reputation for innovation and manufacturing excellence, which has been recognised through numerous awards, accreditations, and OEM approvals. Our main focus is on providing exceptional products and outstanding service. We're dedicated to finding the right solution for even the most complex challenges our customers face.

In today's world, where regulations are getting stricter and performance standards are rising, more professionals are turning to Arrow Solutions. They trust us to deliver on our promise to set the standard in cleaning and maintenance.

Arrow Solutions, Rawdon Road, Moira, Swadlincote, Derbyshire, DE12 6DA, England.
