Re: SKYWIPES 602 300W 24X39 BUCKET SHORTAGE

Dear Valued Customer,

Due to tensions in the fabric supply market linked to shortages with some synthetic fibres, we regret to inform you that with immediate effect SKYWIPES 602 300W 24X39 buckets are not available.

We are unable to provide any information on the expected duration or full effect of the shortage, but we are expecting to return to a normal situation mid-August.

To avoid shortages, Socomore can propose a variant that could be available mid-July. In this proposal, the current textile would be replaced by SOCOSAT 15233, a textile with a premium quality (higher thickness, better mechanical resistance and aerospace approved):

- Product designation: Bucket of SKYWIPES 300W 23x38
- Product code:
 - SKYWIPES 300W 24x39 - pallet 64 buckets (P42578-L060-64-1) **temporarily replaced by SKYWIPES 300W 23x38 - pallet 64 buckets (P42578-192)**
- Packaging: no change, same as the current SKYWIPES 300W bucket

Please contact our customer service to check product availability for the alternative items.

We sincerely regret any impact that this situation may have and thank you for your understanding during this period.

Sincerely,
Benoit Côte
Product Manager
