

**PROFESSIONAL
AUTOMOTIVE
CLEANING PRODUCTS**

NIELSEN
PROFESSIONAL RANGE

" PROVIDING THE VERY BEST QUALITY AUTOMOTIVE PRODUCTS,
WITH A PREMIER SERVICE WHICH IS CONSISTENTLY PROFESSIONAL,
ATTENTIVE AND EFFICIENT"

NIELSEN

NIELSEN CHEMICALS

is a manufacturer of specialist cleaning products for the Automotive Industry; our brand portfolio encompasses a complete range of cleaning, valeting and maintenance products.

Nielson products are sold in the UK through our growing network of franchisees, and worldwide through a trusted base of distributors. We are committed to ensuring product quality and high levels of customer service for each and every one of our customers.

Based in Moira our manufacturing site is complete with an International Training Academy, we develop and design market leading products in line with current legislation, to ensure that they meet the demands of the different business environments in which our customers operate.

We strive to offer the most effective products and to do this we must test hundreds of raw materials and blends, creating easy to use products that work, time and time again. As part of this commitment, our chemists and technicians invest countless hours developing products in our on-site research and development laboratories. This ensures that our products are developed and tested for optimum performance and product compatibility on all existing and emerging automotive materials.

INTERNATIONAL TRAINING ACADEMY

At our site in Moira, our training academy offers a complete purpose built facility for both product training and testing new products which are currently in development. The Training Academy offers all the equipment needed for cleaning, valeting, detailing and paint restoration, including:

- Low and high pressure water cleaning facilities
- A complete range of automatic dilution equipment
- Wet and dry extraction machines
- Machine and manual polishing equipment
- High and low level lighting specifically designed for technical detailing

OUR COMMITMENT TO QUALITY & THE ENVIRONMENT

As an organisation we comply with all European legislation ensuring the protection of both human health and the environment, and are ISO9001, ISO14001 and OHSAS 18001 compliant. Nielson works hard to ensure that products are developed in order to meet the latest environmental legislation, and to minimise their impact on the environment.

In order to pro-actively reduce our carbon footprint, Nielson has signed a contract to work in partnership with The National Forest. We have sponsored a new five-year development on a 30-hectare site that saw a total of 42,000 trees planted by 2015 - each sponsored by Nielson.

OUR COMMITMENT TO HEALTH & SAFETY

As part of our ongoing commitment to health and safety, we provide safety data sheets for each product in our range, which can be found on our website.

TFRs

Concentrated Traffic Film Remover

TRANSPORT 6000 PLUS
 - Concentrated formula offers excellent film-removal and low odour.
 - Removes any coating or film left by other cleaning products such as waxes, oils, sealants and other films.
 - Versatile formula may also be used to clean up and light commercial vehicles.
 - Contains water softeners to protect the glass in any post-wash rinse.
 - Powerful degreasing action makes Transport 6000 Plus an exceptional choice for you.

£ Pack Size
L579 Available Sizes: 20L, 200L

TRANSPORT 5000 PLUS
 - Powerful heavy duty traffic film remover and degreaser.
 - Extremely effective on grease and oil.
 - Suitable for most vehicle types.
 - Can also be used as a pre-spray and through a pressure washer.
 - Highly concentrated for performance and economy.

£ Pack Size
L584 Available Sizes: 20L, 200L, 1000L

TRANSPORT 4000 PLUS
 - Heavy duty degreaser and degreaser.
 - Suitable for cars, commercial vehicles and equipment cleaning.
 - Can be used as a pre-spray and through a pressure washer.
 - Highly concentrated for performance and economy.

£ Pack Size
L578 Available Sizes: 20L, 200L, 1000L

TRANSPORT 3000 PLUS (IMPACT EXTRA)
 - Slightly effective traffic film remover.
 - Can be used as a pre-spray and through a pressure washer.
 - Suitable for most vehicle types.
 - Optimised for performance and economy.

£ Pack Size
L850 Available Sizes: 20L, 200L, 1000L

TRANSPORT 2000 PLUS (ECO XL)
 - Economical universal traffic film remover.
 - Medium duty cleaner for all types of vehicles.
 - Suitable for paint, equipment, engine and chassis.
 - Can be used as a pre-spray and through a pressure washer.
 - Optimised for performance and economy.

£ Pack Size
L567 Available Sizes: 20L, 200L, 1000L

TRANSPORT 1000 PLUS
 - Delivers a level of cleanliness, de-greasing, and degreasing oils and water softeners.
 - Designed to offer the ultimate in versatility containing essential road film and grease removers, with low odour for work.
 - Provides excellent results on all vehicles such as buses, vans, trucks and lorries.

£ Pack Size
L566 Available Sizes: 20L, 200L, 1000L

POWERWAX
 - Powerful heavy duty traffic film remover with ultra additives.
 - Cleans rapidly to improve appearance and buffing the clear.
 - Leaves a protective coating to help repel water and soiling.
 - Can be used as a pre-spray and through a pressure washer.
 - Highly concentrated for performance and economy.

£ Pack Size
L445 Available Sizes: 20L, 200L

POWERFOAM PLUS
 - Powerful high foaming traffic film remover.
 - Also acts as a degreaser for all types of vehicles.
 - Suitable for most vehicle types including commercial vehicles.
 - Can be used as a pre-spray and through a pressure washer.
 - Highly concentrated for performance and economy.

£ Pack Size
L196 Available Sizes: 20L, 200L, 1000L

PREMIUM TFR
 - Very effective concentrated traffic film remover.
 - Has made formula for paintwork, body and chassis film.
 - Extremely effective on grease and oil.
 - Can be used as a pre-spray and through a pressure washer.
 - Optimised for performance and economy.

£ Pack Size
L826 Available Sizes: 20L, 200L, 1000L

SHAMPOOS

XL SHAMPOO

- Concentrated and residual for the best finish
- Largest sudsing protection
- Powerful glossing agent reducing chassis drying
- Controlled foam for easy rinsing
- Leaves a just polished finish on bodywork
- Concentrated for performance and economy
- Pleasant time and odour fragrance

£ Pack Size

L080 Available Sizes: 5L, 20L

SHAMPOO & WAX

- High sudsing shampoo with a high wax formulation
- Added shine and streak free finish
- Concentrated for performance and economy
- Can be used manually or through a brushwash

£ Pack Size

L055 Available Sizes: 5L, 20L, 210L

WATERLESS SHAMPOO & SHINE

- Leaves a streak free finish
- Ideal for use on all material types
- Dilute for economy

£ Pack Size

L546 Available Sizes: 5L

WAX RINSE

- Rinse additive with stain removers and de-waxing agents
- Steady water and fills without leaving any deposit
- Ideal for maintaining fleet vehicles or cars on outdoor display
- Can be added to a traffic film remover prior to cleaning
- Can be used as a separate time-saver
- Reduces waffling and foaming
- Applied by glove, pressure washer or brushwash machine
- Highly concentrated for performance and economy

£ Pack Size

L860 Available Sizes: 5L, 20L, 1000L

AUTOWASH

- A neutral pH friendly vehicle detergent
- A shampoo for car wash systems
- Deep cleaning action suitable for cleaning cars
- Can be used manually or through a pressure washer
- Concentrated for performance and economy

£ Pack Size

L575 Available Sizes: 20L, 210L, 1000L

TRANSPORT SUPERFOAM II

- A high sudsing white shampoo
- Suitable for retail and commercial vehicles
- For brushwash machines and manual application
- Suitable for use in water reclaim systems
- Concentrated for performance and economy

£ Pack Size

L833 Available Sizes: 20L, 1000L

TAR & GLUE REMOVAL

TAR & GLUE REMOVER

- Quickly removes tar spots, oil and adhesive residues
- Prevents degreasing action
- For interior and exterior use

£ Pack Size

L545 Available Sizes: 5L, 210L

ALUMINIUM CLEANER

- Restores the heaviest soils and corrosion
- Cleans and brightens aluminium wheel bodies
- An inhibitor is incorporated to prevent attack on silver metal and paintwork

£ Pack Size

L020 Available Sizes: 5L, 20L, 210L

ACID WHEEL CLEANER

- Powerful acid based cleaner
- Removes grime and brake dust
- Concentrated for performance and economy

£ Pack Size

L194 Available Sizes: 5L, 20L, 210L, 1000L

NON ACIDIC WHEEL CLEANER

- Powerful non acid based cleaner
- Enhances the appearance of wheels
- Concentrated for performance and economy
- Does not attack concrete floors

£ Pack Size

L015 Available Sizes: 5L, 20L, 210L

ACADEMY

Training Courses & Information

THE ACADEMY

At our site in MORA, our training academy offers a complete purpose built facility for both product training and testing new products which are currently in development. The Training Academy offers all the equipment needed for cleaning, valeting, detailing and paint rectification, including:

- Low and high pressure water cleaning facilities
- A complete range of automatic dilution equipment
- Wet and dry extraction machines
- Machine and manual polishing equipment
- High and low level lighting specifically designed for technical detailing

OUR COURSES

Nielsen have devised a series of training courses, designed to provide new and experienced valeters, with the skills to work on vehicles to a professional standard.

Our courses provide an overview of how to valet, clean and conduct paint work restoration, to the highest possible standards and professionalism.

This includes hands on training in product and equipment selection, usage techniques, application methods, dilutions and surface compatibility.

Conducted at the Nielsen Training Academy, Derbyshire, with the full range of products, equipment, personal protection equipment (PPE) and expertise provided. Upon completion, participants will receive certification to confirm and substantiate the individual's level of expertise.

COURSES AVAILABLE:

- PROFESSIONAL VALETING
- PROFESSIONAL SALES VALETING
- PAINT WORK RECTIFICATION & RESTORATION
